

SPECIALITY TREES POLLINATOR TABLE V.2025					Pick Time		
	Genus	Species	Variety	Pollinators	Early season	Mid season	Late season
 APPLE	Malus	Domestica	'Cox's Orange Pippin'	Requires a pollinator, such as 'Jonathan', 'Granny Smith', 'Pink Lady' or 'Fuji' apples		Mid season	
	Malus	Domestica	'Granny Smith'	Requires a pollinator, such as 'Jonathan', 'Granny Smith', 'Pink Lady', 'Delicious' or 'Cox's Orange Pippin' apples.			Late season
	Malus	Domestica	'Jonathan'	Partially self-fertile but pollination partner is beneficial: Granny Smith, Magnus Summer Surprise, Cox's Orange Pippin.		Mid season	
	Malus	Domestica	'Pink Lady' TM	Requires a pollinator, such as 'Granny Smith' or 'Jonathon' apple			Late season
	Malus	Domestica	'Red Delicious'	Requires a pollinator such as Granny Smith, Pink Lady, Red Fuji, Gala, Golden Delicious.		Mid season	
	Malus	Domestica	'Red Fuji'	Partially self-fertile but pollination partner is beneficial, such as 'Red Delicious' or 'Pink Lady' apples		Mid-late season	
	Malus	Domestica	'Sundowner'	Imperial Gala, Granny Smith, Red Fuji			Late season
	Malus	pumila x domestica	'Magnus Summer Surprise'	Requires a cross-pollinator such as Granny Smith, Jonathon, Gala or Fuji.	Early-mid season		
 APRICOT	Prunus	Armeniaca	'Bulida'	Self-pollinating	Early-mid season		
	Prunus	Armeniaca	'Glengarry'	Self-pollinating	Early season		
	Prunus	Armeniaca	'Moorpark'	Self-pollinating	Early season		
	Prunus	Armeniaca	'Newcastle'	Self-pollinating	Early season		
	Prunus	Armeniaca	'Storey'	Self-pollinating		Mid season	
	Prunus	Armeniaca	'Trevatt'	Self-pollinating		Mid season	
	Prunus	Armeniaca x domestica	'Plumcot'	Requires a cross-pollinator such as 'Mariposa', 'Storey' or 'Moorpark' apricot.	Early season		
 CHERRY	Prunus	Avium	'Bing'	Requires a pollinator such as 'Van', 'Stella' or 'Lapins'		Mid-late season	
	Prunus	Avium	'Lapins'	Requires a pollinator such as 'Merchant' or 'Stella' cherry			Late season
	Prunus	Avium	'Merchant'	Requires a pollinator such as Prunus avium 'Lapins'	Early-season		
	Prunus	Avium	'Simone'	Partially self-pollinating, but will benefit immensely from cross-pollination with 'Lapins' or 'Stella' cherries.		Mid-late season	
	Prunus	Avium	'Sir Don' TM	Self-pollinating		Mid season	
	Prunus	Avium	'Stella'	Self-pollinating		Mid-late season	
	Prunus	Avium	'Sunburst'	Self-pollinating, but benefits from another Cherry variety as a polination partner.		Mid-late season	
	Prunus	Avium	'Van'	Requires a pollinator such as Bing, Stella and Montmorency cherries		Mid-season	

SPECIALITY TREES POLLINATOR TABLE V.2025					Pick Time		
	Genus	Species	Variety	Pollinators	Early season	Mid season	Late season
 PLUM	Prunus	Domestica	'Angelina'	Requires a cross-pollinator such as 'King Billy' or 'President' plum	Early-mid season		
	Prunus	Domestica	'Coe's Golden Drop'	Performs better with a pollinator such as 'Angelina' or 'President.'			Late-season
	Prunus	Domestica	'King Billy'	Requires a cross-pollinator such as 'Angelina' plum		Mid season	
	Prunus	Domestica	'President'	Requires a cross-pollinator such as 'Angelina', 'King Billy' or 'Sugar' plum		Mid-late season	
	Prunus	Domestica	'Robe de Sargent'	Requires a polinator such as D'Agen Prune, Greengage, Coe's Golden Drop.		Mid season	
	Prunus	Domestica	'Sugar Plum'	Partially self-fertile but a pollination partner may be beneficial such as Robe De Sergeant.			Late season
ALMOND	Prunus	Dulcis	'Papershell'	Self-pollinating		Mid season	
PEACH	Prunus	persica	'Anzac'	Self pollinating		Mid-late season	
	Prunus	persica	'Donut'	Self-pollinating	Early season		
	Prunus	persica	'Fragar'	Self-pollinating		Mid season	
	Prunus	persica	'Golden Queen'	Self-pollinating			Late season
	Prunus	persica	'J H Hale'	Requires a pollination partner. 'Blackburn Elberta' is the only pollinator.			Late season
	Prunus	persica	'Peacherine'	Self-pollinating	Early season		
	Prunus	persica	'Red Haven'	Self-pollinating		Mid season	
	Prunus	persica	'Red Noonan'	Self-pollinating		Mid season	
	Prunus	persica	'Valley Red'	Self-pollinating		Mid season	
NECTARINE	Prunus	persica nucipersica	'Goldmine'	Self-pollinating		Mid-late season	
	Prunus	persica nucipersica	'New Boy'	Self-pollinating		Mid season	
	Prunus	persica nucipersica	'Sundowner'	Self-pollinating	Early season		
	Prunus	persica nucipersica	'White Satin'	Self-pollinating		Mid-season	

SPECIALITY TREES POLLINATOR TABLE V.2025					Pick Time		
	Genus	Species	Variety	Pollinators	Early season	Mid season	Late season
 BLOOD PLUM	Prunus	Salicina	'Donsworth'	Requires a cross pollinator such as Mariposa, Narrabeen and Santa Rosa		Mid season	
	Prunus	Salicina	'Elephant Heart'	Requires a cross-pollinator such as Santa Rosa, Wickson.			Late season
	Prunus	Salicina	'Gulf Gold'	Partially self-fertile, but will benefit from a pollination partner such as 'Gulf Ruby'.	Early season		
	Prunus	Salicina	'Mariposa'	Partially self-fertile, will benefit from cross-pollinator such as Santa Rosa.		Mid season	
	Prunus	Salicina	'Narrabeen'	Needs a pollinator such as Santa Rosa, Mariposa or Satsuma.		Mid season	
	Prunus	Salicina	'Santa Rosa'	Partially self-fertile, but will benefit from a cross-pollinator such as Satsuma	Early season		
	Prunus	Salicina	'Satsuma'	Needs a cross-pollinator such as Santa Rosa, Narabeen, Mariposa.		Mid season	
	Prunus	Salicina	'Wickson'	Self-fertile but will benefit from cross-pollinator such as Santa Rosa.	Early-mid season		
PEAR	Pyrus	Communis	'Beurre Bosc'	Self-pollinating but will benefit if paired with another of the same kind such as Nijisseiki, Sensation, Williams Pear.		Mid season	
	Pyrus	Communis	'Beurre Hardy'	Self-pollinating but will benefit if paired with another variety such as William, Doyenne du Comice and Sensation.		Mid season	
	Pyrus	Communis	'Josephine'	Requires a compatible pollinator such as 'Packham's Triumph'.			Late season
	Pyrus	Communis	'Packham's Triumph'	Self-pollinating but will benefit if paired with another of the same kind such as Howell, Nijisseki.		Mid season	
	Pyrus	Communis	'Sensation'	Self-pollinating but will benefit if paired with another of the same kind such as Nijisseki, Beurre Bosc.	Early season		
	Pyrus	Communis	'Williams'	Self-pollinating but will benefit if paired with another of the same kind such as 'Beurre Bosc' or 'Nijisseiki'.	Early season		
	Pyrus	Pyrifolia	'Nijisseiki'	Self-pollinating but will benefit if paired with another of the same kind such as Williams, Sensation.		Mid season
